

How to setup the Game On Mobile app for league use:

For our schedule we are using Game on Mobile again; here is a quick refresher on how to use.

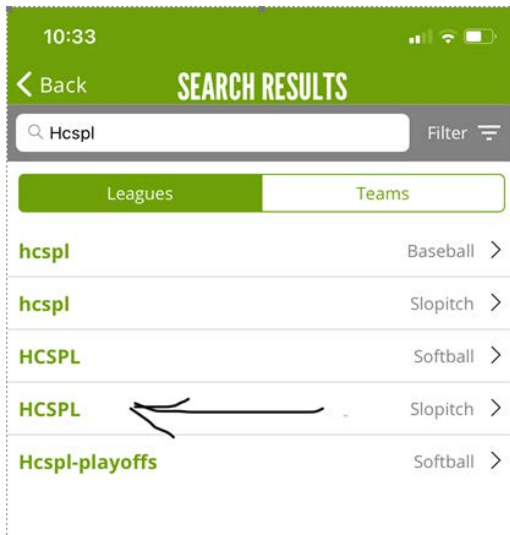

1) League website is

<https://app.gameonmobile.com/organization/245/league/5376/schedule>

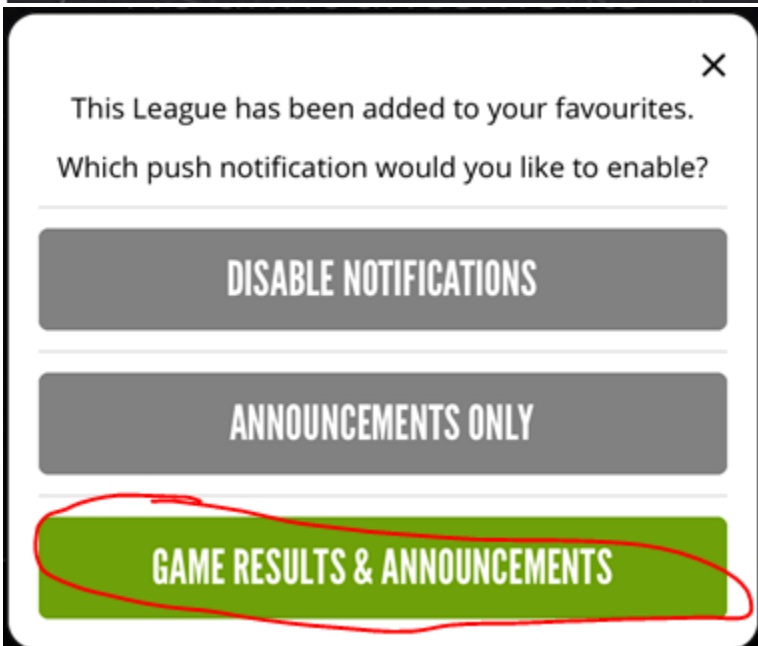

2) From your phone, you can go to www.gameonmobile.com and scroll down on the main page to download the app:

3) Once downloaded, search for HCSPL and select the one here:

- 4) Once in there, you will see a STAR in the top RIGHT, click it and turn on all notifications

- 5) Last step is to find your team, and again click the STAR beside the team name and it will be in your favourites. We want the alerts on as we announce changes and rain outs via the app and this cuts down on your coach's work!!
